Dear Alexis,

Thank you so much for all the great scripts you wrote for the Convention Videos, not forgetting the other ones through the year. It's been a real find, and I am truly grateful to Rob for putting you onto me.

Your hard work and striving for excellence in providing the best creative work is really appreciated. You play a very important role in making us the formidable team we are.

Thank you for all your support and help through the last 8 months and I wish you and the family everything of the best for the remainder of 1999.

kindest regards,
